

(ISC)2

The International Information Systems Security Certification Consortium certifies industry professionals and practitioners under an international standard for information security. Our courses help the learner prepare for the Certified Information Systems Security Professional (CISSP) exam. Additional information and certification requirements are available at <http://www.isc2.org>.

Exam	Course Series
CISSP	CISSP Security Professional

Certified E-Commerce Consultant

The Institute of Certified E-Commerce Consultants (ICEC) offers the Certified E-Commerce Consultant designation, designed for E-Commerce and E-Business managers and consultants.

Learners who master the first two courses in the Internet Marketing series, plus three electives in the series, can register for the CEC designation. Complete certification details are located at the CEC Web site at <http://ceccertified.com/>.

Exam	Course Series
Valid transcripts (No exam necessary)	Internet Marketing

Cisco Certifications

Cisco offers the Cisco Certified Network Associate (CCNA) designation to professionals passing exams covering the installation, configuration, and operation of simple-routed LAN, routed WAN and switched LAN networks. Additionally, Cisco offers the Cisco Certified Network Professional (CCNP) designation to professionals passing exams covering installation, configuration, and operation of LANs and WANs with networks of 100 or more nodes. We offer courses to help you prepare for these certification exams. Complete certification requirements are located at the Cisco Web site at <http://www.cisco.com>.

Exam	Course Series
CCDA	Cisco Related Series: CCDA
CCNA	Cisco Related Series: CCNA 640-801
CCNP	Cisco Related Series: BSCI 642-801, BCMSN 642-811, BCRAN 642-821, CIT 642-831

CompTIA A+, Network+, Server +, and Security + Certification

CompTIA, the Computing Technology Industry Association, offers the A+ Certification exams, a testing program that certifies the competency of entry-level (six months experience) service technicians in the computer industry. The A+ Certification exams assess basic computer service and repair technology skills. We are an authorized CompTIA curriculum provider, and we also offer courses to help you prepare for Network+ and Server+ certification exams. The Network+ certification verifies that the candidate knows about the OSI model, network components, and basic networking hardware peripherals and protocols. The Server+ certification credential validates advanced-level technical competency of server issues and technology, including installation, configuration, upgrading, maintenance, troubleshooting and disaster recovery. The Security+ series helps prepare the learner for the Security+ exam by teaching general security concepts, communication security, infrastructure security, some basics of cryptography, and operational and organizational security. It also provides a practice exam that includes questions in a format similar to the certification exam. Complete certification requirements for A+, Network+, Security+, and Server+ are located at the CompTIA Web site at <http://www.comptia.com>.

Exam	Course Series
A+ 2003 Core Hardware & Operating System Technologies	CompTIA A+ 2001
Network+ Exam	CompTIA Network+ (new series coming in Sept. and Dec. 2005)
Security+ Exam	Security+

European Computer Driving Licence (ECDL) Certification International Computer Driving Licence (ICDL) Certification¹

The ECDL Foundation awards ECDL or ICDL certification to those who have passed one theoretical test on basic Information Technology concepts and six practice-based tests using a personal computer and common computer applications. To

prepare for these tests, an individual may take our courses. As a certified ECDL/ICDL vendor, we provide courseware that has been approved by the ECDL foundation and meets the criteria of version 3.0 and version 4.0 of the ECDL syllabus. Full certification requirements are located at the ECDL Foundation Web site at <http://www.ecdl.com>

Exam	Course Series
European Computer Driving Licence, Syllabus Version 4.0	European Computer Driving Licence, Version 4.0
International Computer Driving Licence, Syllabus Version 4.0	International Computer Driving Licence Version 4.0
BCS Certificate for IT Users (Level 2)	BCS Certificate for IT Users (Level 2) — Unit E
International Computer Driving License 4.0 XP US	International Computer Driving License 4.0 XP US

¹ Presentation of the ECDL/ICDL logos signify that the courseware material distributed through this Web site has been developed by MindLeaders and has received the approval of the ECDL Foundation Ltd. and interim localization approval from ICDL Canada Ltd.

Microsoft Certification Courses — Technical Professionals

We offer an in-depth curriculum to help you prepare for the Microsoft certification exams. The listing below represents currently available courses.

In addition to those listed below, candidates can also earn a Microsoft Certified Professional (MCP) certification by passing any current Microsoft certification exam. Complete certification requirements are located on the Microsoft Training and Certification Web site at <http://www.microsoft.com/learning>.

Exam	Type	Course Series	Training Available
MCAD			
70-229	Elective	70-229 SQL Server 2000 Database Design MCSE	9 courses (22 hours)
70-305	Core	Visual Basic .NET for Web MCSD/MCAD 70-305	8 courses (19 hours)
70-306	Core	Visual Basic .NET Windows Apps MCSD/MCAD 70-306	6 courses (14 hours)
70-310	Core	Visual Basic .NET for XML Web MCSD/MCAD 70-310	6 courses (15 hours)
70-315	Core	Visual C# Web Applications MCAD 70-315	13 courses (51 hours)
70-316	Core	Microsoft .NET Applications MCSD/MCAD/MCDBA 70-316	6 courses (12 hours)
70-320	Core	Visual C# XML MCAD 70-320	13 courses (52 hours)
MCDBA			
70-215	Core	70-215 Windows 2000 Server MCSE	12 courses (46 hours)
70-216	Elective	70-216 Windows 2000 Network Administration MCSE	6 courses (22 hours)
70-228	Core	SQL Server 2000 Admin MCDBA MCSA MCSE 70-228	7 courses (13 hours)
70-229	Core	70-229 SQL Server 2000 Database Design MCSE	9 courses (22 hours)
70-290	Core	Windows Server 2003 Administration MCSE 70-290 Series	12 courses (54 hours)
70-291	Core	Windows Server 2003 Network Management MCSE 70-291	14 courses (54 hours)
70-293	Elective	Windows Server 2003 Network Planning MCSE 70-293	13 courses (51 hours)
MCDST			
70-271	Core	Windows XP System Support MCDST 70-271	7 courses (17 hours)
70-272	Core	Windows XP Application Support MCDST 70-272	5 courses (13 hours)

Certification Training

Exam	Type	Course Series	Training Available
MCSA Windows 2000			
70-210	Core	70-210 Windows 2000 Professional MCSE	12 courses (42 hours)

Oracle Certification Program

Oracle offers several certifications for database professionals. The Oracle9i Certified Database Associate credential introduces users to the major components of an Oracle server and the database structure. We offer courses to help learners prepare for these certifications. Complete certification requirements are located at <http://www.oracle.com>.

Exam	Course Series
1Z0-007	Oracle9I SQL 1Z0-007
1Z0-031	Oracle9i Database Fundamentals 1Z0-031

Project Management Institute (PMI®)

The Project Management Institute (PMI®) administers a globally accepted professional certification program. The Project Management Professional PMP series maps to the PMP certification objectives and is designed to help a project manager prepare for the PMP exam. The Project Management series teaches the key elements of successfully managing a project. It and other courses we

offer meet the PMI education requirements for PMP and CAPM candidates, and for PMP certified professionals. Full certification requirements may be found at <http://www.pmi.org>.

Exams	Course Series
PMP Certification Exam CAPM Exam	Project Management Professional Certification 2005 Project Management Fundamentals of Business Management Time Management Fundamentals *Additional "previously licensed" series continue to be approved by the Project Management Institute for Professional Development Units (PDUs). These courses include the Business Communications, Business Management, and Time Management series.

ProsoftTraining Certified Internet Webmaster

Certified Internet Webmaster is an information technology job curriculum and certification designed to help career changers enter the IT industry and experienced and vendor-certified professionals build on existing IT skills. We offer the following courses to help learners prepare for these certifications. Complete certification requirements are located at <http://www.CIWcertified.com>.

Exam	Course Series
1D0-410	Certified Internet Webmaster Foundations 1D0-410 Series
1D0-470	Certified Internet Webmaster Security 1D0-470 Series

Red Hat Certified Technician — Linux

The Red Hat Certified Technician (RHCT) exam is a performance-based test that measures actual competency on live systems. The Linux Red Hat Technician RHCT RH202 course is designed to help the learner prepare for tasks covered by the exam, including how to install and configure Linux, as well as how to perform routine administrative and maintenance tasks. To learn more about Red Hat certifications visit <http://www.redhat.com>.

Exam	Course Series
RH202	Linux Red Hat Technician RHCT RH202

Sun Certification Program

Sun Microsystems offers professional certifications for Java 2 Platform 1.2 and for the Solaris Operating Environment. We now offer courses to help you prepare for these certifications. Complete certification requirements are located at the Sun Microsystems Web site at <http://www.sun.com>.

Exam	Course Series
SCJP Sun Certified Java Programmer 310-011	Solaris 8 System Administrator 310-011
SCJD Sun Certified Java Developer 310-035	Java 2 Programmer Certification 310-035 (Update of 310-025)
SCSA Sun Certified System Administrator for the Solaris 9 Operating System, Parts I and II 310-014, 310-015	SCSA Solaris 9
